EAST MAINE CONFERENCE SEMINARY.

LOCATION.

This Institution was established in 1851 under the auspices of the East Maine Conference of the Methodist Episcopal Church.

The School is located in the town of Bucksport, Maine, a beautiful village on the Penobscot river, eighteen miles below Bangor. It is easy of access by means of railroad and steamboats.

The Seminary Buildings stand upon an eminence overlooking the village, and commanding a view which, for variety and beauty of scenery, cannot be surpassed.

PLAN OF THE INSTITUTION.

The design of its founders was to subserve the interests of the State in promoting the cause of a sound and symmetrical education. It has practically and successfully endorsed the theory that in co-education, with proper restrictions, young people obtain the most natural and healthful development of their faculties under conditions which give them the best preparation for future duties and responsibilities. Thorough instruction is furnished in all the various branches of study necessary to prepare for literary pursuits or practical business of life.

The Institution furnishes an advanced course for ladies. There are in this course two departments, the *Belles Lettres* and the Classical. The *Belles Lettres* course requires three years for graduation; the Classical requires four years. These courses are complete, thorough and practical.

In music and art the Institution offers most excellent facilities for the education of the taste and for general culture.

The Institution is a College Preparatory School. Those who satisfactorily complete the curriculum in this department are able to enter any New England College or University.

The other courses of study are carefully arranged with reference to the particular object in view. To impart a thorough knowledge of the various subjects treated, and at the same time to inculcate habits of independent thought, is the object toward which is directed the ambition of all connected with the management of the school.

ADMISSION.

All candidates for admission are expected to give satisfactory evidence of good moral character. Students entering any of the regular courses are examined in the studies preparatory to the course or must furnish proof of their preparation. The same evidence of proficiency is also required of candidates for advanced standing.

PROMOTION.

Pupils are promoted in the courses in each separate study, from term to term, upon passing satisfactory examinations in the work performed.

Those not in regular courses can join, without examination, such classes as are adapted to their attainments, and special pains will be taken to form classes for their accommodation.

COURSES OF STUDY.

There are seven regular courses of study :

- 1.—The Academic.
- 2.—The College Preparatory.
- 3.—Advanced Courses for Ladies.
- 4.—The Belles Lettres.
- 5.—The Scientific.
- 6.—The Industrial Science.
- 7.—The Commercial.

COMMERCIAL DEPARTMENT.

This department designs to furnish young men and women with a thorough business education. A practical course of instruction has been adopted which cannot fail to give entire satisfaction to all concerned.

TIME OF ENTERING.

Students may enter at any time during the school year, but it is desirable that they should enter at the beginning of a term.

GENERAL PLAN OF INSTRUCTION.

The student is first instructed in the theory of accounts, learning carefully all principles applying to the simplest business transaction and extending them to the more complicated departments of trade. He is taught that the several changes in a merchant's business require a corresponding change in his method of keeping books. After he has become thoroughly familiar with preceding principles, he is given a series of carefully graded sets, taken from actual business transactions, and is required to write them out in full. His books are balanced often, his assets and liabilities determined and a full statement of gains and losses are made and entered.

One hour per day is devoted to Commercial Arithmetic. Special attention will be given daily to students in Penmanship.

COMMERCIAL PAPERS.

The student is required to write in full Commercial Papers, including bills, orders, drafts, bills of exchange, mortgages, insurance policies, &c., as he advances in his course. He also receives instruction in business correspondence; spelling, punctuation and the use of capitals receiving careful attention.

CLASSES.

There is no class system, but each student receives special instruction adapted to his peculiar wants and capacity. He is allowed to proceed as rapidly as is consistent with a thorough comprehension of preceding principles.

LECTURES ON COMMERCIAL LAW

will be delivered during the year by prominent lawyers. Students taking the Commercial Course will receive the benefit of lectures in the other departments which will be of great advantage.

TUITION.

Full Course, including Single and Double Entry, First Term,	\$15.00
Any Succeeding Term,	10.00
Single entry,	3.00
Penmanship, 12 Lessons,	1.25
Penmanship, 24 Lessons,	2.00
Flourishing,	4.50

Ordinarily two terms are required to complete the course, but many by devoting their entire time to the work may complete it in a single term.

GENERAL INFORMATION.

MUSIC.

The department of music is in charge of a thoroughly competent teacher, and will be kept fully up to the standard of all similar institutions. It is the design of the department to furnish a practical and solid course of study based upon the most approved methods. Pianos and organs from the best makers are furnished for practice. Instruction is given in Vocal Culture in classes and individually.

IN THE DEPARTMENT OF ART

Instruction is given by an artist of ability in Mechanical, Free Hand, and Perspective Drawing, Sketching from Nature, Crayoning, Pastel, Oil Painting and Water Colors.

NORMAL CLASS.

As many of our students engage in teaching a portion of the year, a class will be formed, when desired, for their special instruction and training. All in our power will be done to aid deserving students in procuring desirable situations as teachers, and school agents and committees are invited to correspond with the Principal.

LECTURES.

Frequent lectures, often accompanied with experiments, are given by members of the Faculty and others. These lectures embrace Language, Literature, History, Natural Science, Fine Arts, &c.

DISCIPLINE.

The discipline is mild, but firm and decided. Prompt obedience to the rules of the Institution will in all cases be required. It is expected that all students in their intercourse with one another, and with the Faculty, will conform to the courtesies and proprieties of good society. Those

who persist in violating or evading any regulations will be promptly dismissed. All the pupils in the boarding house are under the immediate and personal care of the Faculty, and those who room elsewhere are held strictly amenable to the laws of the school.

RELIGIOUS OBSERVANCE.

Students are required to attend church twice upon the Sabbath, at one of the churches in the village; also daily prayers in the Seminary Chapel. Prayer and class meetings are held weekly, the attendance upon which is optional. While carefully avoiding the appearance of sectarianism, our aim is by precept and example to inculcate the advantages of forming habits conducive to a moral, upright and Christian life.

PUNCTUALITY, STUDY HOURS AND RECREATION.

Perfect punctuality throughout the year is the standard presented to every pupil on entering the seminary. Without a high standard of punctuality, it is impossible to maintain a high standard for study and correct scholarship. The loss of a single lesson or the study hours of an evening may be felt for many weeks. One imperfect lesson often discourages a pupil and produces a succession of similar lessons. One absence prepares the way for a second, and a deficiency of promptness in one scholar will have its influence on others. It is very important that the regular study hours should not be interrupted. Calls and visits made by the students are confined to the daily recreation hours and the regular recreation day. Their friends in the vicinity are requested as far as practicable to make their calls during these hours. Saturday is the regular day of recreation.

DECLAMATION AND COMPOSITION.

Declamations are required from the gentlemen, and compositions from all the students, once in three weeks. A portion of each Friday afternoon is devoted to declamation and the reading of essays by the advanced students before the whole school.

DIPLOMAS.

Students completing any of the regular courses will receive diplomas signed by the Faculty. Those taking partial courses may receive certificates of the amount completed.

RANKING.

Students are marked according to merit in their classes, upon a scale of 100. The rank of 90 is considered meritorious. Various degrees of proficiency are indicated by marks ranging downward as far as 60. A student marked lower than this will be required to review the study or studies in order for promotion. To attain the maximum mark requires not only uniform attendance and success in recitations, but also corresponding deportment. A record of deportment and scholarship of every student is kept, and sent to parents or guardians at the end of each term.

EXAMINATIONS.

Examinations, written or oral, are held at the close of each term. At the close of the spring term, occur the anniversary and graduating exercises. Students who leave before the end of the term, without good and sufficient reason, forfeit the benefit of review, suffer a depreciation in their work, and expose themselves to the imputation of shirking the approaching examination. No student is honorably relieved from school duties, until excused by the Principal.

LIBRARY.

The school has the nucleus of a good library to which additions are now being made. We desire to increase the present collection, until the library shall become large and valuable and prove of great advantage to the students in the prosecution of their work. In order that this may be accomplished, we solicit contributions of books from the friends of the school. No one can fail to realize the importance of a large and well selected library in an institution of learning. If all our friends will respond to this invitation, the need of the Seminary in this direction may be promptly met.

CABINET AND APPARATUS.

The Seminary is in possession of a valuable cabinet of minerals, which affords good facilities for the study of Geology and Mineralogy. It is also furnished with a good chemical and philosophical apparatus; also globes, maps, charts and appropriate drawings and illustrations in Natural History and Astronomy.

LITERARY SOCIETIES AND READING ROOM.

Connected with the Institution are two flourishing literary societies,—the Calorhetorian, sustained by the gentlemen, and the Eulalian, by the la-

dies. By the gentlemen of the Calorhetorian society, a reading room is maintained and furnished with a good supply of periodical literature.

PRIZES.

The following prizes are offered to the pupils of the school:

THE BLAIR PRIZE, the gift of Mrs. Hon. H. W. Blair, will be awarded to that pupil who shall excel in English Literature.

THE MAGEE PRIZE, the gift of J. P. Magee, Esq., will be awarded to that pupil who shall excel in Moral Philosophy.

THE SHERMAN PRIZE, the gift of J. Edwin Sherman, Esq., will be awarded to that pupil who shall excel in Mathematics.

THE PRATT PRIZE, the gift of a friend, in memory of the late Rev. George Pratt, will be awarded to that gentleman who shall excel in Declamation.

THE ——— PRIZE, the gift of a friend, will be awarded to that young lady who shall excel in Declamation.

THE PRECEPTRESS' PRIZE will be awarded to that pupil who shall excel in Botany.

THE PRINCIPAL'S PRIZE will be awarded to that member of the Calorhetorian or Eulalian Society who shall write the best English essay on a given subject. The subject for the essay of 1884 is "Unconscious Influence."

The prizes were awarded last year as follows:—

THE DOUGLASS PRIZE, a first-class "Household" sewing machine, the gift of J. H. Douglass, Esq., of Bucksport, was offered to that young lady who should excel in Declamation and was awarded to Grace H. Blodgett, Bucksport.

THE PRATT PRIZE was awarded to Herbert C. Hooke, No. Searsmont.

THE BLAIR PRIZE to Alice S. Howes of Bucksport.

THE MAGEE PRIZE to Gussie C. Swazey of Bucksport.

THE SHERMAN PRIZE to Herbert C. Hooke of No. Searsmont.

THE PRECEPTRESS' PRIZE to Melville L. Allen of Mt. Desert.

THE PRINCIPAL'S PRIZE to John T. Higgins of West Eden.

BOARDING HOUSE.

The boarding house is a large, substantial, brick building, heated throughout by steam, capable of accommodating one hundred and twenty-five boarders. It is the aim of the Trustees to make the house an agreeable

home for students. The members of the Faculty board in the house, and sit at the same tables with the students. Every care will be taken to promote the improvement, comfort and happiness of pupils. The social intercourse of the house partakes more of the simplicity of the family circle than of the common restrictive rules of the school system. The price of board, *including room rent, fuel and light*, is \$3.25 and \$3.50 per week according to room selected.

Students provide their own towels, napkins, soap, sheets, pillow cases and lamp. Washing in the boarding house laundry costs about 36 cents per dozen.

Mirrors and crockery, for use in rooms, and room keys will be charged in all bills, to be paid for in advance; but the amount will be refunded if the articles are returned to the office in good condition at the end of the term.

Occupants of rooms are held responsible for any damage to room or furniture.

Good accommodations for self-boarding can be obtained by those desiring.

The rooms in the boarding house will be assigned in the order of applications. Send to Mr. Leroy Rogers, Steward, to engage rooms.

Board bills are payable, one-half at beginning of the term, the balance at the middle of the term. No deduction from board bill will be made for less than ONE WEEK'S CONTINUED ABSENCE.

FREE SCHOLARSHIPS.

"Boston University has set before it at the outset of its career the highest educational aims of both hemispheres, and appears in the intellectual arena determined to be the most comprehensive and generous training-school for humanity in the world. German, English, and American experience and ideas are all drawn upon in the plan of its organization."—*Atlantic Monthly*.

"It is meant to be the most comprehensive institution of its kind in existence."—*New York Tribune*.

"The Institution furnishes, at slight cost, the best possible instruction."—*Harvard Advocate*.

"Its success is surely extraordinary."—*Boston Daily Advertiser*.

"The Boston University Year-Book gives complete information concerning, probably, the most liberal and catholic and truly just institution of learning ever established. Neither sex, color, class, nor condition is known in its benefactions, provided the applicant be worthy. Success to such a college, say we."—*The Commonwealth, Boston*.

This was THE FIRST UNIVERSITY in the United States to present in The ology, Law, and Medicine uniform graded courses of instruction covering three scholastic years, and to require in each case the three full years of study. It was also the first to open a FOUR-YEAR'S COURSE IN MEDICINE, and to re-establish the long-lost Baccalaureate Degrees in Medicine and Surgery. In CLASSICAL EDUCATION it has established the highest practicable standards, and won already a solid reputation.

With the Faculty of the School of all Sciences are associated the four Faculties of the National University at ATHENS, and the four Faculties of the Royal University at ROME.

Circulars of the separate departments free. In several departments there are FREE SCHOLARSHIPS.
